

'Global FISHER' SPRAY VALVE & HANDLE

This Spray Valve (G2949-B) is integral to obtaining WELS rating to 6 stars with a nominal flow rate of only 3.3 LPM. Fisher was the first spray valve to achieve this lpm. The tip is designed to cut through the toughest of baked on food scraps, and for those residual bits one can use the brush head that fits inside the bumper.

Universal Spray Gun - Pt. No. GF2949-2913A
 Designed to suit most other brands of pre Rinses

STANDARD SPARE PARTS FOR FISHER TRIGGER VALVES

Used & Preferred By Leading Restaurant chains:-

KFC Sizzler Subway McDonalds
 Max Brennan Chocolate plus many, many, more

DON'T LET Imitators FOOL YOU

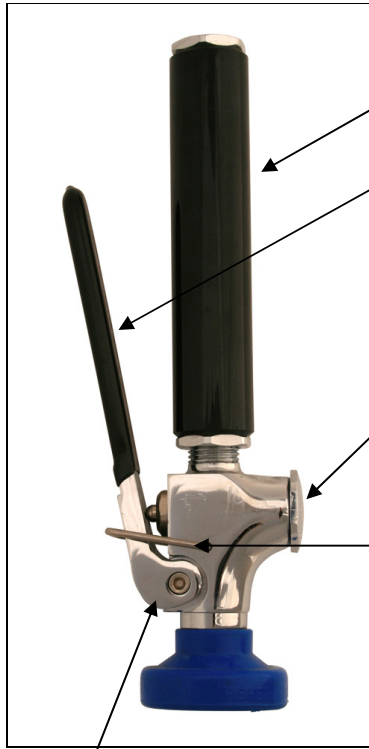

There is only **ONE** valve that is good enough **for you** and your business

Be business savvy - Use **only** the **Proven** best :- **"FISHER"** -

Available from:-

Why use a Fisher spray valve over the competitors

Comes with a 24 months warranty.

Insulated Handle – hard wearing & durable

Insulated chrome-plated BRASS squeeze lever

Internal workings are simple yet hard wearing.
We give a **lifetime Warranty** on the **seating**.

- Easily repairable kit includes all inside & outside working parts.

S/S clip –

- Quick & easy to flip ON & OFF.
- No using of cumbersome loose ‘O’ Ring to slide up & down.
- Has a Quick Release when Gun is facing downwards.
- One squeeze and the clip is released turning the valve off.

Fisher uses a **Metal on Metal STOP**. This results in less wear on the squeeze lever as other types of spray guns use **plastic levers** with a metal stop. Resulting in quicker wear and more **flopping** of lever.
