

UNIVERSAL PR SPRAY GUN

The Complete Pre Rinse Spray Valve Replacement Kit

Pt. No.- GF2949-2913A

Introducing the 'GLOBAL FISHER' Spray Gun

This Spray Gun kit is designed to fit most common commercial Pre Rinse units on the Australian market. It, like our hose replacement kit, has been brought about due to complaints from plumbers & merchants that it is too hard to find the right gun to match up with the different Pre Rinse hoses. NOW you can.

FITS To:-

- ✓ The New watermarked 'Global Fisher' & the older model 'Fisher' Pre Rinses.
- ✓ The New watermarked 'Global Rinse-Maid' & 'Global Q' Pre Rinses.
- ✓ Enware brand of Pre Rinses.
- ✓ Galvin brand of Pre Rinses.
- ✓ LW Gemmel brand of Pre Rinses.
- ✓ T&S brand of Pre Rinses. (No longer available in Australia)
- ✓ Encore brand of Pre Rinses. (No longer available in Australia)
- ✓ Other Pre Rinses that have a 1/2" bsp or 7/8" unf fine female hose ends.

Features:-

1. High Performance = WELS 6 Star at 3.5 lpm (best on market)
2. Complete unit carries its own Watermark.
3. All Metal Squeeze Lever Handle = Longer lasting
4. Metal to metal stopper on handle = NIL flopping that plastic Squeeze Lever handles get.
5. Easy to use Clip to keep gun on. Has a built-in quick release safety feature others don't have (providing gun is facing downwards).
6. No large bulky 'O' rings to fiddle with to keep gun in the on position o
7. Comes with an extra adaptor to enable it to fit to T&S / Encore / LWG brands of hoses.
8. The preferred spray gun by a leading National chain of restaurants.
9. Used in Water Conservation Exchange programs by Water Authorities.
10. End user comfort & reliability.

UNIVERSAL PR SPRAY GUN

Fitting the replacement Spray Gun - Pt. No. GF2949-2913A

INSTALLING:

- ❖ **Fitting to 'Global Fisher' / older model 'Fisher' / 'Global Rinse-Maid' / 'Global Q'.**

- Fisher Unit - Remove the 1/2" bsp male adaptor from end of the handle and screw directly onto the Fisher Hose.
- Rinse Maid Unit – Same as above but if adaptor is missing :- Screw the complete Gun into the 1/2" Swivel female on the end of the S/S Braided, Plastic Coated Hose. Do not use a washer but use a High Quality Thread seal tape (Pink or Blue). The adaptor MUST NOT touch the hose seat, this is to allow the female hose end to swivel.

- ❖ **Fitting to Enware / Galvin / Other Hoses with 1/2" bsp Female ends.**

- Screw the complete Gun with 1/2" male nipple into the 1/2" female on the end of the Hose. Do not use a washer but a High Quality Thread seal tape (Pink or Blue). This is to allow the female to swivel.

- ❖ **Fitting to T&S / Encore / LWG / other hoses with 7/8" unf Fine Thread.**

- Screw the 1/2" bsp Female x 7/8" unf Fine Adaptor onto the end of the spray gun and then screw Gun into the 7/8" unf Fine female on the end of the Hose.
- **Note** – We may from time to time run out of this M & F adaptor, in which case we will provide M & M adaptor – this is 3/4" unf Course male (Fits into Handle) x 7/8" unf Fine male (Fits into Hose). In this case, Just replace the adaptors over.
