PAPER TOWEL ROLLER DISPENSER

with LOCK.

Pt. No. **GC-PTH-L** **RRP $_____ + GST**

Part Two – Weighted cover assists with tearing off of the paper & stops paper from running out freely.

Part one – 2mm Thick S/S is robust and not easily bent.

BONUS Feature
Holds 2 Toilet Rolls

Part Two - the bar has 2 locking features at each end.

Combination Lock. Gives you control.

This is our **New Quality Paper Towell Roller Dispenser**. Lots of thought and discussion has gone into this design, We wanted to be different from the everyday flat paper towel or big, bulky paper roll dispensers that are made overseas and fully imported.

What we Did & Why: The industry standard is either units that suit 'flat folded paper towels' or big bulky 'Paper Roll Dispensers' that you can only source from a Hospitality / Janitor / Office Suppliers. We wanted a more practical "Compact" one for our Factory / Kitchen / Bathroom, so we set about to design one. After make & testing our first "Budget" one, shown on the next page, it includes the improvements we found that it needed. After research we found there is a requirement for 2 models. This one, here, is our '**High Quality, Lockable**' Unit.

FEATURES :-

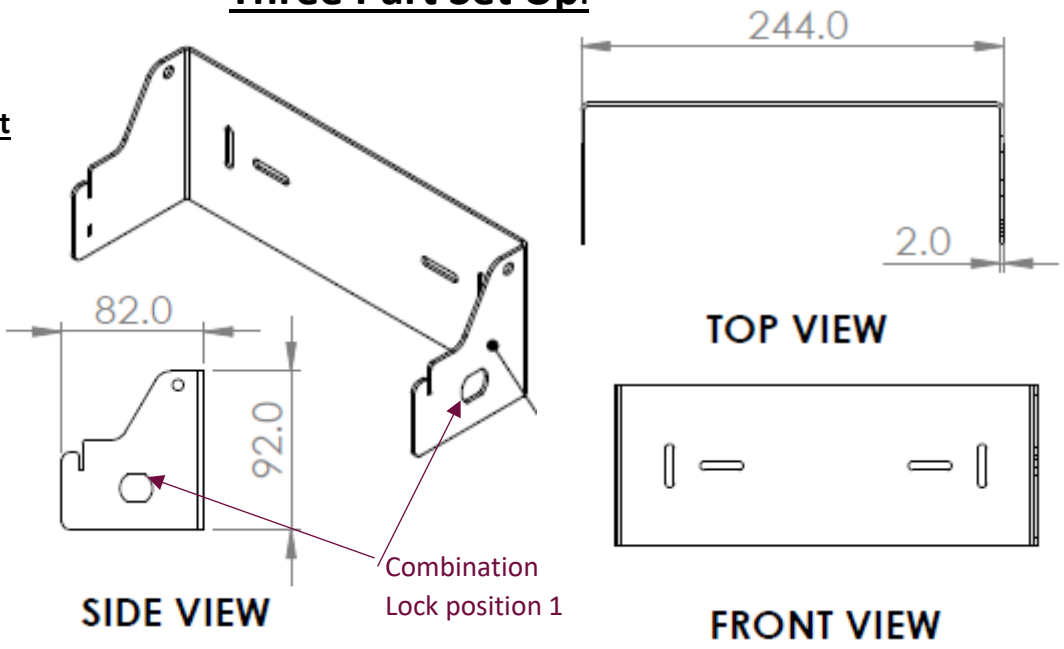

1 - Strong, easy to clean & hygienic made in polished 304 Stainless Steel.
2 - We built it with a combination lock rather than a key that can get lost or left in unit.
3 – Will suit standard (120mm) to large (145mm) Diameter size Rolls & various lengths.
4 – Paper Towell Rolls can be source from multiple location from SUPERMARKET to Specialist supplies. - You Can't do that with flat pack folded towels.
5 - Cover Plate is designed to be weighted to hold paper in place, and if need be, to place 1 wet hand when pulling towel.

GLOBAL TAPWARE PTY LTD **1300 85 25 15** **info.tech@globaltapware.com**

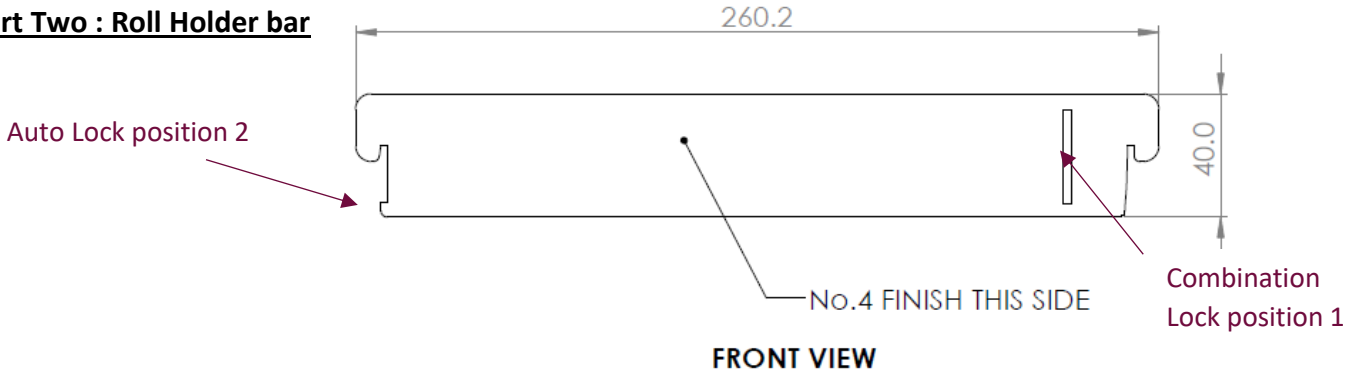

Technical:

Three Part Set Up:

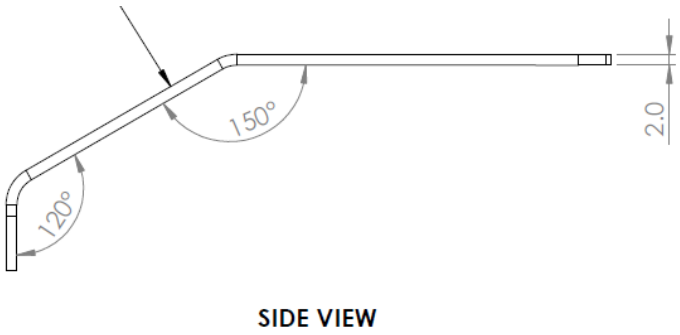

Part One : Wall Bracket

Part Two : Roll Holder bar

Part Three : Roll Cover Plate Plate

Budget Model – Coming out in 2026.

- **As above LESS LOCK.**
